## Mr.ぴなくる2

☆

I definitely recognize and admit to that climbing cause serious accident(death,physical handicap,etc) and to perform maintetenance by ぴなくる2 is not perfect. For example climbing holds spin round and are broken. Mat can't perfectly prevent accident when you fall to the mat. And I definitely recognize and admit to that player and visitor cause possibility of serious accident to the others player.

Based on the above I abide by rules and instruction.And I endeavor accident prevention.If I am against the rules and these,I promise stopping to use ぴなくる2,to quit it, and to pay back.
